

AIPG Student Resources

Opportunities For Students To Apply For Scholarships And Internships Through AIPG And American Geosciences Institute (AGI)

AIPG Foundation: Young Professional Pilot Program

The **AIPG Young Professional Pilot Program** is a concept to bring together young geoscience professionals in various regions of the country for social interaction, training, and networking among themselves and with companies and organizations that employ geologists. The Foundation of the AIPG plans to financially support a Young Professionals Pilot Program (YPPP) that AIPG will design and operate. This YPPP will most likely be in the Denver area. More information is at the link below:

<http://www.aipg.org/about/aipgfoundation.htm>

AIPG Undergraduate and Graduate Scholarships

Undergraduate Scholarship

- \$1,000 Scholarship
- Submit Application by February 15th
- Awarded in May
- Details of what is required is on the Application Form

More information is available on the AIPG website. See the link below:

<http://www.aipg.org/students/scholarship.htm>

Previous winners have used their scholarship award to attend the AIPG National Conference and the State section assisted with costs to make this possible. The 2015 National Conference is to Anchorage, Alaska.

William J Siok Graduate Scholarship

This is a new scholarship program in honor of Bill Siok, our recently retired Executive Director . One scholarship will be awarded in 2015 to a graduate student majoring in the Geosciences in the U.S. Check out more details on the website, at:

<http://www.aipg.org/students/graduatescholarship.html>

Other Student Resources

The January/February/March Edition of TPG every year is the Student Edition. Students can write articles for this edition or read helpful articles contributed by other AIPG members. Check out previous year editions at:

<http://aipg.org/publications/TPGPublic.htm>

American Geosciences Institute.

The American Geosciences Institute (AGI) is a nonprofit federation of geosciences and professional organization (AIPG is a member) which represents more than 250,000 geologists, geophysicists, and other earth scientists. They provide information, educational programs, policy and many other services. Browse their website:

<http://www.agiweb.org/>

The AGI Intern Program

Two important services they provide to young professional geoscientists is workforce information, for example salary ranges

<http://www.americangeosciences.org/workforce>

and an intern program,

<http://www.americangeosciences.org/policy/get-involved/internships-and-fellowships#PolicyInternship>

I hope that you find these resources helpful.
